ABOUT US

OUR MISSION

To provide access to clean water and continue to support well communities with initiatives that promote health, education, women's empowerment and general well-being.

OUR VISION

The Samburu Project was founded on the promise of delivering access to clean water. Along the way, we discovered that water does so much more than we imagined. With clean water, families grow their own food, girls go to school, and women empower themselves through small businesses. Water helps communities grow, learn and thrive.

OUR VALUES & GUIDING PRINCIPLES

We are an organization based on the idea that dignity is a universal birthright and through dignity we can restore hope for a better future. We acknowledge the one world we all share, and TSP strives to build a global community through donors, volunteers and supporters and the Samburu people. We believe community engagement and strength in numbers is a catalyst for positive change.

INTRODUCTION

GETTING TO 100!

After an action-packed year of well drilling, getting our Samburu Sisters program running, moving our office, growing our Walk for Water event into a national one with satellite walks in 10 cities around the US, adding 3 new members to our board, and finally starting the strategic planning process, 2017 culminated in funding our 100th well at Splash Bash. It was a great year!

In Kenya, our Project Manager moved the organization forward by implementing new programs, collaborating with new partners, and working with our well communities on educational and gardening workshops. We also had our first ever event in Nairobi – Dance for Water in which 50 people learned about TSP and danced the night away. Another milestone from 2017 was achieved when TSP Grants Manager, Kiki Swanson visited Samburu for the first time and met so many of the communities she had only known by their names.

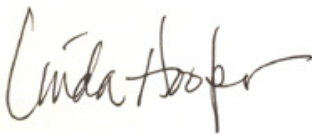

We drilled ten wells with Pass Africa, resulting in the 100th well drilled since the organization was founded in 2005. It was a standard day at the office for our Kenya staff and drill crew but a BIG moment that we will be celebrating throughout 2018. The well drill went very smoothly, albeit a bit delayed due to prolonged flash flooding in Kenya during the beginning of 2018. A 100 Wells Celebration was held at our Samburu office in Wamba on Saturday, 16 June 2018. This is a milestone that we share with every donor, volunteer, intern, supporter that has been involved with TSP since 2005. Together, we have changed people's lives in a profound way. Healthier children, more girls attending school, food security for families, and empowered women with more time for income generating businesses - that is cause for celebration!

What's Next?

Water and more! Providing access to clean, uncontaminated water is the core of our mission and we will continue to drill wells in Samburu. Having impacted 100 well communities, we are expanding our programs to further support the Samburu people in their pursuits to achieve happier, healthier lives outside poverty and meet the demands of modern life.

Onward we go!

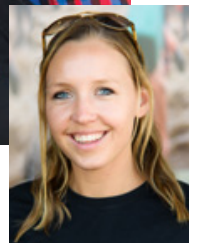

With gratitude for your continued support,

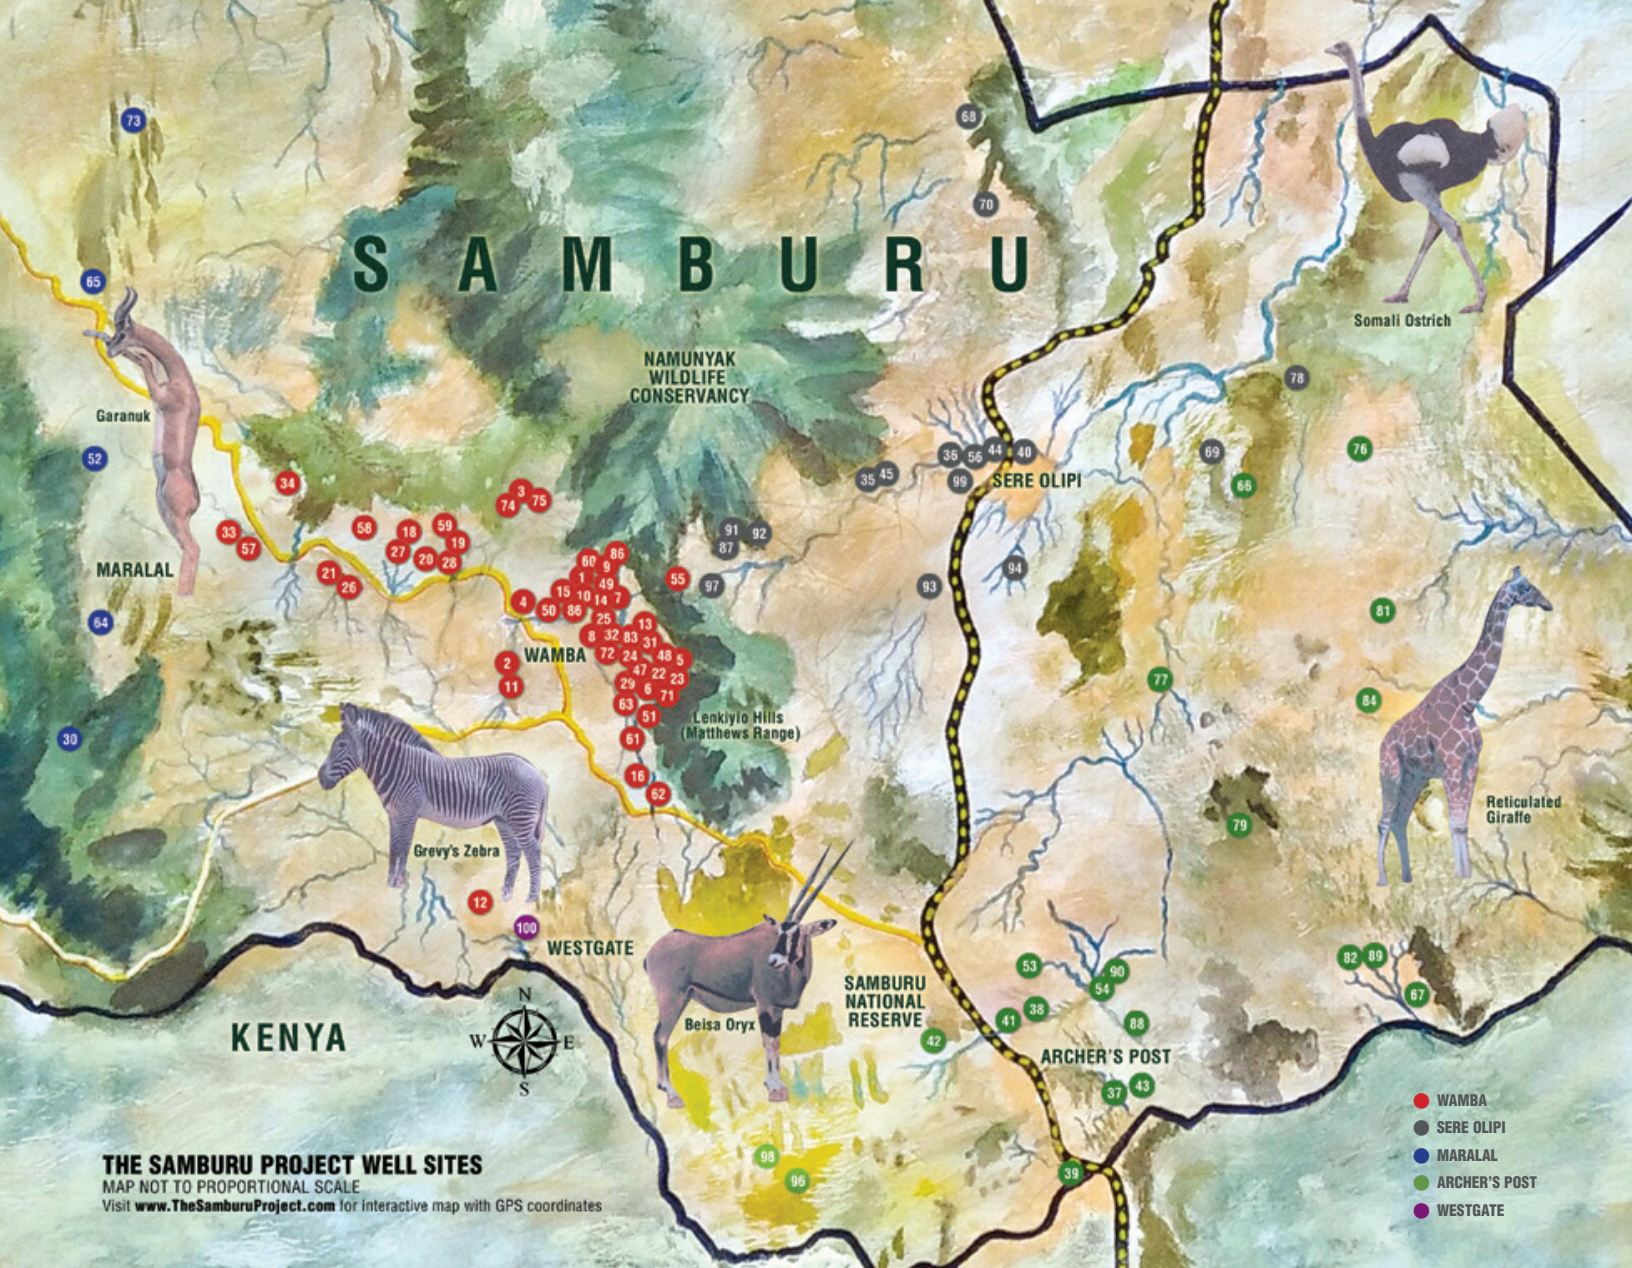

Linda Hooper, Executive Director

Our Team (Left-Right): Paul, Kiki, Mercy, Linda, Eric, Victoria

WELL DRILL 2017

The Samburu Project embarked on its 10th well drill in Samburu, Kenya. For the 7th year in a row, we engaged the services of Kariuki Waruinge of GroundWaterMax, Nairobi to conduct hydrogeology studies to determine site selections.

Pass Africa, Nairobi was contracted to conduct the actual drilling. Only slightly delayed in schedule, it was a thrilling day when the 100th well was drilled in early 2018.

Hygiene & Sanitation workshops were conducted at each well in March and April of 2018. A county health officer facilitated the workshops to educate the community on proper hand-washing, the importance of keeping animals drinking from the trough and people drinking from the spout, and various other issues to keep the well clean and safe.

Our 100th well - Lchoro - in the Westgate area, expands our reach to a new part of Samburu. The Westgate community is in desperate need of water. We were thrilled to find water in Lchoro and to provide this much needed water point. Each well provides access to clean water for 600 - 1,000 people.

SAMBURU SISTERS PROGRAM

WOMEN'S EMPOWERMENT WORKSHOP

The Samburu Sisters program got off to a great start in 2017. Partnering with the Pastoralist Child Foundation (PCF), a one-day workshop was conducted for the Ntilal & Lolgerdad well communities near Archer's Post. On July 11, 2017, TSP Executive Director Linda Hooper and PCF Executive Director Samuel Leadisimo kicked off the day with welcome remarks and refreshments.

A full day of lectures by Christine Namunyak (community leader), Julius Leorto (county health administrator) and Elizabeth Lemoyog (community mobilizer and FGM workshop facilitator) was enjoyed by 75 women. Topics of discussion included conflict resolution, personal rights and freedoms, the importance of education, HIV/AIDS education, cultural practices and taboos as it relates to female circumcision.

Feedback from the community was overwhelmingly positive. More workshops are planned for 2018.

SACK GARDENING PROGRAM

With availability of clean water, TSP is teaching women in our well communities how to grow their own food. With a generous grant from the Harbourton Foundation, TSP partnered with Give A Child Life Kenya (GACLK) to pilot a program on door-step gardening. Beginning in September, the staff of GACLK traveled to TSP HQ in Wamba to meet with 25 pre-selected women gardeners. A workshop on how to assemble a sack garden was conducted at TSP HQ. The gardeners returned to their homes with sacks, seedlings of kale and other greens where on site instruction continued. Mercy Jamwelly conducted weekly site visits to each gardener. Challenges with the quality of seedlings undermined the process for some gardeners while others thrived. More sacks were requested and a seed bed was constructed so seedlings would be readily available. With the availability of strong seedlings the program thrived.

Some gardeners were eating their own vegetables in only three weeks after the initial planting. Several gardeners were inspired to plant more sacks and are now selling their vegetables at the local market. Jacinta Lekolii made enough money from the sale of her crops to open a shop where she now sells vegetables along with tea, sugar and other household goods.

Jacinta Lekolii proudly displaying her new shop.

COMPLETION OF KAUMBA PROJECT WELL IN KISUMU

After 8 years, the collaboration between TSP and Mwendu Pfeffler saw a conclusion with a well and solar pump project in Kisumu. The Kaumba Project was a passion project for Mwendu who wanted to put a well in her father's hometown. TSP facilitated and administered the project on the ground. It was a happy day when the well and solar were finally installed in his memory.

MAMA WACHIRA'S ORPHANAGE

A serendipitous meeting between Linda and Kiki and Jason Souza of the EOD Vets group proved to be the beginning of a wonderful collaboration. The EOD Vets, stationed in Archer's Post fell in love with the region and wanted to give back in some way. They adopted the children of Mama Wachira's Children's Home to support with construction of a dormitory and mess hall. After visiting the home, we knew we could lend a hand. Offering the oversight and hands-on involvement with Mama Wachira's, TSP began collecting donations and assisting on the ground with facilitation of program administration. The 14 children who live at Mama Wachira's, all of whom are orphans, are now fed, clothed, sleep in beds at night, and go to school. Most importantly, they now have a proper home. More building projects are planned for 2018 as the home grows to accommodate more orphaned children.

WALK FOR WATER

On Sunday, April 30, TSP held its 8th Annual Walk for Water in Hermosa Beach, CA. The event was once again chaired by our three South Bay Musketeers Grace Chung, Molly Canales, Wendy Baskins, with the addition of Jen Frisch.

The students of Mira Costa High School and the Model UN class were prominent participants again this year.

After a 4 mile walk/run between Hermosa and Manhattan Beach Piers, walkers of all ages returned to American Junkie Restaurant where they enjoyed a delicious celebratory breakfast. Trader Joe's was an event sponsor this year along with Board Member Emeritus, real estate developer and "Pancake King," Mike Rossi.

With 250 walkers, raising over \$45,000 for clean water a fun and impactful day was had by all.

SATELLITE WALKS

Walks for Water were also held in 10 additional cities around the United States. Thanks to our dedicated Water Ambassadors in each of these locations for rallying a crowd for clean water!

- 1. Chicago (IL) Thanks to Jasmine, Olivia & Isabella Hauser
- 2. Dallas (TX) Thanks to Lindsay Hackett
- 3. Detroit (MI) Thanks to Christine Schefman
- 4. Denver (CO) Thanks to Kenny Leavitt & Jessica Knauf

BOARD MATCH

TSP was invited to participate in Board Match on the Google campus in Venice, CA. Through this event, we met Jeanette Lomboy-Blossom, Maya Henderson and Douglas Smith. After several meetings, Jeanette, Maya and Doug were all voted onto the TSP board in October. Our board now numbers seven dedicated members, which has given us the capacity for tackling large projects like strategic planning and data collection and analysis. All busy professionals from varying fields, they have brought diverse experience and expertise to our board.

JEANETTE LOMBOY-BLOSSOM. As Vice President, Executive Regional Leader, Jeanette oversees all Walt Disney Imagineering efforts and overall visioning for the Disneyland Resort for Aulani, a Disney Resort & Spa. She is also a wife and mother of two adorable boys.

MAYA HENDERSON. Maya is the Sustainability Manager at Kilroy Realty Corporation (KRC), ranked the number one real estate company in sustainability in North America by the Global ESG Benchmark for Real Assets (GRESB). Maya is also an active volunteer with other organizations to infuse sustainability into projects that help foster community connectivity and social equity.

DOUGLAS SMITH. Doug Smith is an attorney with the international law firm of Skadden, Arps, Slate, Meagher & Flom LLP. Doug co-founded and served on the board of directors of Global Playground, an international nonprofit focused on promoting cross-cultural dialogue and improving education in developing countries.

TSP HQ MOVES TO HISTORIC HELMS BAKERY BUILDING

After eight years in a former utility closet in a building on Main Street in Santa Monica, TSP was finally able to grow into a proper office. In June, The Samburu Project moved to the historic Helms Bakery Building in Culver City. We now have proper desks for three employees and plenty of space for interns and volunteers. The TSP Board of Directors meeting was held for the first time actually IN the TSP office.

SPLASH BASH 2017

TSP celebrated our 12th year anniversary at Splash Bash 2017. Held at The Mark for Events, our 250 guests were entertained by live, African drumming and dancing courtesy of Balandugu Kan.

The evening's presentations included a recap of the year by our Executive Director, Linda Hooper, acknowledgment of two outstanding volunteers; Lexi Ornelas and Alyssa Castronouvo, a video thank you from Samburu and a time lapse video of a day at Lolgerdad well shot by Mamen Saura.

Fundraising activities were held throughout the night through live and silent auctions, art and photography sales, a wall of fine wine, and a "fund a need" effort that generated funding for our 99th and 100th wells. Confetti and champagne commemorated that milestone moment!

The evening concluded with an incredible performance by blues guitar prodigy, Christone "Kingfish" Ingram. Guests danced into the night and out the door.

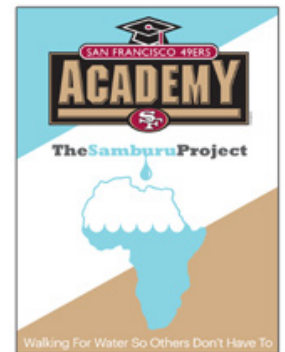

NAIROBI DANCE FOR WATER (KENYA)

For the first time, TSP hosted an event in Nairobi. The Dance for Water was held at the ShiftEye Gallery. Forty guests attended to learn about our work in Kenya and dance the night away. It was the first time ever that TSP staff from Kenya and California could represent the organization together and have a great time doing it.

KIDS HELPING KIDS

In recognition of Giving Tuesday, TSP teamed up with the 49ers Academy in East Palo Alto for a Walk for Water event that connected under-privileged kids in CA with kids in Samburu. The 49ers Academy students were thrilled to walk for water so kids in Samburu don't have to. They celebrated with a post-walk pizza party. Thanks to Doretta Bonner, Michelle Sharkey and Siobhan Jones for organizing this event.

Hermosa Beach

Samburu Project's Walk for Clean Water in Hermosa Beach

by Genie Davis

On April 30, the Samburu Project will hold its 8th annual Walk for Water Pier to Pier Walk in Hermosa Beach. And, for the first time, walkers across the globe will be joining in the fundraiser.

According to Kiki Swanson, director of development and program administration, as local walkers make their way to the Manhattan Beach Pier and back, the Samburu Project is hosting satellite walks. These walks will be held in other California locations such as Malibu and Woodside as well as in major metropolitan areas including Chicago, Dallas, Denver, Detroit, New York, Phoenix, San Francisco, Stamford, Conn., and London, England.

"This year, we'll have 13 walks throughout the country and abroad," she relates. "Here in the South Bay as always it will be a special day for us. Our community is heavily involved, with lots of local vendors showing up, and Mira Costa High School has a big presence as well. Students are personally involved in fund-raising for the event."

Mira Costa High School students participate in the project through their Model U.N. class and their instructor Bob Timberlake, who is committed to the event. Swanson herself also encourages student interest.

"I come to the high school and explain the Walk for Water and the project itself. We create shareable fundraising pages for the students participating in the Pier to Pier Walk, so they can send it to family and friends and get sponsors," she said.

The Samburu Project has been working with Mira Costa students for six years, and the students represent an integral part of the fundraiser.

"We think it's a really special event because we are raising money for the women in rural Kenya who have no choice and must walk for water. We have a tent set up with jerry cans like those that women use there to carry water. Seeing them and being able to pick them up makes it easier for participants to relate to the experience of carrying cans that weigh 44 pounds when filled with water," Swanson explains.

The event supports The Samburu Project's goal of providing access to clean water, as well as building awareness of a global safe-water crisis, and the poverty issues created by Kenyan women's long walk for potable water. Samburu women can walk up to 12 miles a day, often forced to rely on water from contaminated sources. The Project works directly with the Samburu community to drill wells providing access to clean drinking water, and have drilled 86 of them to date.

Students walk along The Strand during last year's Walk for Water in Hermosa Beach.

submitted photo

Following the walk, attendees will enjoy a pancake breakfast at American Junkie with entertainment, games, raffle, a silent auction and prizes for the top fundraisers.

For more information, to register for the event, or to donate, visit www.thesamburu-project.org

or call (310) 881-7265.

The walk, which starts at 8 a.m., both begins and ends at American Junkie, located at 68 Pier Ave. in Hermosa Beach.
